### Join Our List

[Join Our Mailing List!](#)

Dear Gloria,

## Solutions. 2D Electronics is all about solutions.

This month you will see new vendors and new products that offer solutions to your challenges.

Our sales team can answer your question and find the product. For example: Avalon's new COFDM line is robust and brings a level of performance to a price point not previously seen. The new solar/wind kit from Videolarm might not be the product you sell on each job, but when you need it... we've got it.

The new eLine HIK-PC DVRs. They are all about video quality - Real-Time on each channel at D1 resolution for analog and the ability to add megapixel IP. In addition, an HDMI output for primary or secondary monitor gives you the best in quality from end to end. Call us today for more information or check out our online demo.

Finally there is a price change for RBH products. We have been given a new price list that takes effect on Nov. 22nd. Talk to your sales rep now about how this may affect you.

Mike Davis, President  
2D Electronics

### NEW: Avalon COFDM Video Receivers

2D welcomes Avalon RF to our Line Card and introduces their COFDM Digital Video Receiver & Transmitter Systems

The ODX402/ ODX502/ ODX602 is a rugged two-antenna diversity "receiver" intended for demanding long range, high mobility wireless video applications, stereo audio & ( data ). The COFDM transmission of digital video ensures a robust video, audio & (data) link all in one.

## MSP \$8,842 - Call for Dealer Pricing

### RBH Price Changes

**RBH Customers:** RBH has released to us a new price list that will go into effect on Nov. 22, 2010. These new prices are significantly different in some cases. If you have existing quotes or estimates with RBH products, please contact your sales representative to understand the price changes and how they may affect you. We will be releasing the new price list to customers as soon as possible.
